

Assign project permissions

To assign **permissions** for a specific project, as an administrator, you access the **project overview** via

MODULES

--> **Project time acquisition**

--> **Projects**

Select the desired project and click on the **"Permissions"** tab to get to the permissions overview. Here you will find an overview of all existing permissions for this project as well as the possibility to **delete, modify and assign** new ones. To do this, proceed as follows:

- 1) **Klick on button "Add permission"**
- 2) **Choose the desired subject type for permission** (whole client, group or individual roles/persons)
- 3) **Choose the desired subject which shall be permitted** (which client, group, role, person)
- 4) **Choose the desired permission category**(multiple types pickable)
[more about the different permission categories](#)¹
- 5) **Select date for "valid from"** (if nothing is inserted here, the current date is assumed)
- 6) **Select date for "valid till"** (if nothing is specified here, the longest possible validity is assumed)
