

4.2.4

Fehler

- [[WD-8470](#)¹] - Attendance tableau report
- [[WD-8508](#)²] - Webdesk HRX standalone without Shark dB/workflow licence not working in 4.2.x

Bug

- [[WD-5014](#)³] - Time Booking comments are shown in printout but missing in XLS and PDF exports
- [[WD-6690](#)⁴] - Remove legacy implementation of PoMenuService + UI
- [[WD-7722](#)⁵] - WF open todos - comment function - "Comment" and "Template" not translated
- [[WD-7816](#)⁶] - "Edit Project" with project tree loading very slowly - Make loading progressively
- [[WD-7818](#)⁷] - Caching bug: User has no projects to book on although having permissions (via varying degrees)
- [[WD-8082](#)⁸] - Can't scroll in menu template view
- [[WD-8295](#)⁹] - Project chooser for chosen employee falsely shows projects of authenticated user
- [[WD-8305](#)¹⁰] - Forbid implicit change of menu-templates inside client-menutree-editor
- [[WD-8337](#)¹¹] - Back-Button not working in editPerson Admin UI
- [[WD-8432](#)¹²] - Rescheduling Grid does not take full height reliably
- [[WD-8473](#)¹³] - Webdesk on PR-69 instance doesn't startup because of broken/inconsistent database
- [[WD-8518](#)¹⁴] - RestAuthorization not working when webdesk running with context
- [[WD-8526](#)¹⁵] - Change Password runs forever, does not change password
- [[WD-8573](#)¹⁶] - IllegalArgumentException when using daily discounts in travel expenses

New Feature

- [[WD-8333](#)¹⁷] - REST-Service for creating a new trial customer on webdesk instance
- [[WD-8426](#)¹⁸] - Integration of all REST Authentication/Authorization Layers

Task

- [[WD-3044](#)¹⁹] - Concept Rest Authentication based on API Key or User<-> Endpoint Relation
- [[WD-7575](#)²⁰] - Webdesk Licence for hr-actions
- [[WD-8396](#)²¹] - Update React version to 16.8

Improvement

- [[WD-7281](#)²²] - Support dynamic fields of PtmTimeEffort also in PTM reports
- [[WD-7585](#)²³] - Status Panel has neutral fallback state (grey & empty) before receiving real state from server
- [[WD-8279](#)²⁴] - "Numbers of bookable projects on Kiosk and in total" shall be shown in entire lifecycle
- [[WD-8315](#)²⁵] - Deactivate browser autocompletion/suggestions in menu search field

- [WD-8320²⁶] - Referer based REST Authorization interceptor
- [WD-8414²⁷] - Travel expense: improve route in kilometer allowances tab by allowing the selection of standard destinations
