

Improvement

- [[WD-5646](#)¹] - Improve Usability in Time Attendance-tab of po_editPerson.act
- [[WD-5931](#)²] - Performance improvement of Project Time Report
- [[WD-6202](#)³] - Menutree templates view in editMenuTree needs side-by-side panel
- [[WD-6309](#)⁴] - Menu Tree Maintenance - After adding an action link from the chooser give clearer followup choice
- [[WD-6331](#)⁵] - CSV-Export of complete Salary components table
- [[WD-6411](#)⁶] - executeAndStoreReports: export file attachments
- [[WD-6421](#)⁷] - HRX Dashboard: Make a description for "Abwesenheitsrate"
- [[WD-6500](#)⁸] - Validation error marker should disappear as soon as the user fixed the invalid field
- [[WD-6582](#)⁹] - Refresh PTM and Time Mobile booking page when app is awoken from background.
- [[WD-6654](#)¹⁰] - sadmin change password success message should not display the stored value
- [[WD-6682](#)¹¹] - Refresh WF Mobile Assigned Requests on app wakeup

New Feature

- [[WD-72](#)¹²] - Integrate ChangeLog-Interceptor into Webdesk
- [[WD-257](#)¹³] - Berechnung Auslandsdienstreisen für DE
- [[WD-6570](#)¹⁴] - Tabbed Pane transforms from single row to multi row when viewport width requires it
- [[WD-6615](#)¹⁵] - Change behaviour of password bean properties in system parameters action

Bug

- [[WD-5522](#)¹⁶] - Controls in connector preview are messed up in responsive skin
- [[WD-5907](#)¹⁷] - Fix responsive skin in action: seperatorFileConnector
- [[WD-5964](#)¹⁸] - Rescheduling: check boxes get not checked when editing an existing planning
- [[WD-6079](#)¹⁹] - In Rescheduling Planning UI today should always be focused
- [[WD-6105](#)²⁰] - Field order in rescheduling mask is completely mixed up
- [[WD-6180](#)²¹] - Sub projects are not synchronized between servers in our Live system
- [[WD-6339](#)²²] - Buttons without appropriate styling classes in "Report Definition" in tab "Report designs"
- [[WD-6428](#)²³] - Favorite Panel missing in Responsive Skin and wrong buttons in Favorite Management
- [[WD-6459](#)²⁴] - TravelExpense: estimated km via geocomplete plugin not working
- [[WD-6479](#)²⁵] - Address validation: wrong validation error when opening draft travel
- [[WD-6513](#)²⁶] - Validation shows duplicate message on HRX person editor's Terminations' tab
- [[WD-6522](#)²⁷] - Travel expense: Submission in IE11 leaves UI frozen but backend receives submission properly
- [[WD-6536](#)²⁸] - Fatal problems with wf_getOrgProcessInstances configurations
- [[WD-6546](#)²⁹] - Opening a person in Webdesk Admin saves (!) x other persons behind the scenes
- [[WD-6561](#)³⁰] - Long project master data description causes an exception

- [[WD-6565](#)³¹] - Root Folder Path for a new configuration is not validated and not testable
- [[WD-6580](#)³²] - Login not possible with Umlaute in username or password
- [[WD-6583](#)³³] - Document Structure cannot be created at fresh installed Alfresco
- [[WD-6590](#)³⁴] - Flawed UI rendering in the Attachment Panel in processes that set daily rights
- [[WD-6602](#)³⁵] - Rescheduling: show weekends in responsive skin
- [[WD-6633](#)³⁶] - Import of artifacts is not working because of wrong import of AuditLog field
- [[WD-6639](#)³⁷] - Import of PoConnectorLink configuration is not working because UUIDs are imported
- [[WD-6644](#)³⁸] - Forced sadmin password change makes NULL Pointer error
- [[WD-6645](#)³⁹] - Deleting of a today created person causes an NP Exception
- [[WD-6648](#)⁴⁰] - Correct equals() implementation in AbstractPersistentObject to integrate the class name
- [[WD-6650](#)⁴¹] - Edit time efforts: when adding a new effort comment field will not autoresize on typing
- [[WD-6656](#)⁴²] - Error in update script v158 (prepare.xml)
- [[WD-6663](#)⁴³] - Back Button does not work when opening embedded journal
- [[WD-6675](#)⁴⁴] - Technical Review with Jozef
- [[WD-6689](#)⁴⁵] - Regression: encrypted beanproperties are injected encrypted.
- [[WD-6745](#)⁴⁶] - Rendering error in activities after auto-refresh in PTM stop-watch

Task

- [[WD-6362](#)⁴⁷] - Add Fake possibility to switch to other Users
- [[WD-6605](#)⁴⁸] - Transform KIOSK-APP code to use Typescript
- [[WD-6606](#)⁴⁹] - Functional Review with Gabriel
- [[WD-6612](#)⁵⁰] - Change in whole webdesk picture icons to use icon service
- [[WD-6643](#)⁵¹] - Update Personalwolke Test Server to 4.0.25
