# 4.4.0

Release Notes - Webdesk - Version 4.4.0

## Fehler

- [WD-9287[1]] - Cardreader isn't working after update

## Bug

- [WD-5013[2]] - Time Correction has a mirrored primary button on bottom, which is not updating on toggling
- [WD-8648[3]] - Time correction multi day process ignores role when you can select a roleholder
- [WD-8657[4]] - HRX-Report EmployeeState: Reasons are show with keyvalue and not text
- [WD-8662[5]] - HRX-Reports: Birtreportset_changes takes not the entry date for the entry list
- [WD-8704[6]] - Client specific "All kiosk Administrators" and "Hierarchical group for technical users of Kiosks" falsely allow to link to groups of other clients too
- [WD-8735[7]] - Can not terminate Person during Secondary Employment
- [WD-8739[8]] - When changing validity of person in HRX, the employment validity is not updated accordingly
- [WD-8764[9]] - Releaser plugin releases EVERY module regardless of a change
- [WD-8882[10]] - Monthly project time: Hours to allocate are shown as minutes
- [WD-8941[11]] - Webdesk doesn't start in clustered scenarios
- [WD-8943[12]] - Access Right Sets are not taken in consideration for Roles and API Keys
- [WD-8944[13]] - Caching for TaTimeModelProgram/TaTimeModels needed
- [WD-8953[14]] - Selection of entries in standard destination selection dialog in travel form is not working
- [WD-8957[15]] - "All Kiosk Administrators" group not selected when deactivating the automatic group creation
- [WD-8965[16]] - Cannot create a new person in HRX when employments tab is opened
- [WD-9007[17]] - Freebusy graphic in attendancetableau broken
- [WD-9067[18]] - Webdesk Mobile App doesn't retain login information (iOS + Android)
- [WD-9120[19]] - BS4: Uncaught JS errors when exporting any list as Print/PDF/Excel
- [WD-9144[20]] - Regression: Progress column in Workflow-List contains unnecessary break per performer
- [WD-9170[21]] - Master data validity overridden with current date when creating new user in HRX with changed valid-from
- [WD-9184[22]] - Pay group shouldn't be editable if labor contract not selected
- [WD-9208[23]] - NPE when saving new person in HRExpert
- [WD-9228[24]] - Manual Roleholder selection should only be possible on first activity in Custom Workflow
- [WD-9237[25]] - NPE when creating a new employment state w/o filling the state property
- [WD-9278[26]] - IllegalArgumentException after updating webdesk from 4.0.x to 4.4.x on HrPersonEmploymentStates

## New Feature

- [WD-7961[27]] - HRX: display the value-set collected from another field as selection list
- [WD-8847[28]] - Set Dashboard as Startpage in HRX

## Task

- [WD-8106[29]] - Write upgrade script to create employments out of the existing employment states
- [WD-8814[30]] - Move the Exception handling to Http library
- [WD-8988[31]] - Increase minor version number for 4.4

## Improvement

- [WD-7464[32]] - General improvements on BIRT reports for HRX
- [WD-8434[33]] - Add validation when inserting state in SECONDARY employment
- [WD-8438[34]] - Add possibility to create custom strategies for new relation creations in HRX
- [WD-8469[35]] - Use existing TERMINATED states when filling gaps in employments' timeline
- [WD-8600[36]] - Deletion of positions should only be possible if position has no persons assigned
- [WD-8621[37]] - Sticky Header in Native React Table
- [WD-8810[38]] - Add "Duration" column in HrPersonEmploymentState table
- [WD-8815[39]] - Add non-destructive option to termination dialog
- [WD-8878[40]] - "Administrator group" of kiosk gets restricted to groups of own client
- [WD-8927[41]] - Approved timeefforts shall not be editable
- [WD-8928[42]] - PoTaInterceptor should not block saving a person, if TA is unavailable
- [WD-8968[43]] - Creating a new employment state should use the parent's validity to prefill its own validity
- [WD-8971[44]] - Add validation to the withdrawn date in the change/withdraw termination dialog
- [WD-8978[45]] - Change the icons of the termination dialog buttons
- [WD-9008[46]] - Make it possible to add additional fields for HrPersonRelative and HrPersonRelativeInternal
- [WD-9041[47]] - Duration of employment/states should be calculated correctly
- [WD-9046[48]] - Change the order of columns to better support comprehension as a timeline and better readability
- [WD-9048[49]] - Duration of employments and states: How to calculate them regarding past/future or in/finite
- [WD-9095[50]] - Conditional text format for prefilling the comment field in the termination dialog
- [WD-9110[51]] - TaAbsenceEntryApplication: comment needs to be improved to save exactly what was given to the method without webdesk prefixes
- [WD-9270[52]] - Auto creation of new Employments shall take the validity of a free primary inactive state to prefill its own validity
- [WD-9283[53]] - HrPersonEmployment / HrPersonEmploymentState: state should have validfrom of today instead of using the employment validfrom

## Sub-task

- [WD-7907[54]] - Improvements report Org Unit Change List
